CONTENTS OF VOLUME 69, 1979

No. 1 — JANUARY

1 **Acknowledgment of reviewers**

4 **John Grainger, 1904-1978** ..... M. R. M. Clark

5 **Author's guide**

DISEASE DETECTION AND LOSSES

8 **Brown spot development and yield response of soybean inoculated with Septoria glycines at various growth stages** ..... L. D. Young and J. P. Ross

12 **Use of sodium dodecyl sulfate in serodiagnosis of barley stripe mosaic virus in embryos and leaves** ..... T. W. Carroll, P. L. Gossel, and D. L. Batchelor

15 **Dispensing and monitoring ozone in open-top field chambers for plant-effects studies** ..... A. S. Heagle, R. B. Philbeck, H. H. Rogers, and M. B. Letchworth

ETIOLOGY

21 **Thresholds for injury, growth, and yield loss caused by ozone on field corn hybrids** ..... A. S. Heagle, R. B. Philbeck, and W. M. Knott

27 **Pseudomonas corrugata, a pathogen of tomato, isolated from symptomless alfalfa roots** ..... F. L. Lukezic

PHYSIOLOGY AND BIOCHEMISTRY

32 **Time-course and antioxidant inhibition of ethylene production by victorin-treated oat leaves** ..... H. Wheeler and E. Elbel

35 **Effect of scar skin and dapple apple diseases on certain groups of phenolic compounds in apple** ..... M. C. Huang and G. N. Agrios

ECOLOGY AND EPIDEMIOLOGY

41 **Phenology of Comandra blister rust in Arkansas** ..... W. E. Dolezal and F. H. Tainter

VECTOR RELATIONS

45 **Evidence for lack of propagation of potato leaf roll virus in its aphid vector, Myzus persicae** ..... F. Eskandari, E. S. Sylvester, and J. Richardson

GENETICS

48 **Genetic control of primary haustorial development of Erysiphe graminis on Wheat** ..... M. J. Haywood and A. H. Ellingboe

54 **Multiple-size plasmids in Agrobacterium radiobacter and A. tumefaciens** ..... S. Sheikholeslam, B.-C. Lin, and C. I. Kado

POSTHARVEST PATHOLOGY AND MYCOTOXINS

59 **A fungicide-wax treatment to suppress Botrytis cinerea and protect fresh-market tomatoes** ..... G. A. Chastagner and J. M. Ogawa

DISEASE CONTROL AND PEST MANAGEMENT

64 **Biological control of Rhizoctonia solani damping-off with wheat bran culture of Trichoderma harzianum** ..... Y. Hadar, I. Chet, and Y. Henis

69 **Ceratocystis ulmi tolerance to methyl-2-benzimidazole carbamate and other related fungicides** ..... W. T. Nishijima and E. B. Smalley

SPECIAL TOPICS

74 **A model of damping-off and root rot of Douglas-fir seedlings caused by Fusarium oxysporum** ..... W. J. Bloomberg

TECHNIQUES

82 **A selective medium for isolation of Corynebacterium nebraskense from soil and plant parts** ..... D. C. Gross and A. K. Vidaver

88 **Rapid diagnosis of citrus tristeza virus infections by sodium dodecyl sulfate-immunodiffusion procedures** ..... S. M. Garnsey, D. Gonsalves, and D. E. Purcifull

96 **Detection of seedborne plant viruses using serologically specific electron microscopy** ..... R. H. Brlansky and K. S. Derrick

1-A1 **Abstracts of papers presented at the 1979 meeting of the Southern Division of the American Phytopathological Society**

No. 2 — FEBRUARY

DISEASE DETECTION AND LOSSES

101 **Response of white bean to bacterial blight, ozone, and antioxidant protection in the field** ..... P. J. Temple and S. Bisessar

104 **Viruslike particles transmitted by and detected in spawn of the cultivated mushroom, Agaricus bisporus** ..... S. M. Tavantzis and S. H. Smith

ETIOLOGY

108 **Further studies on the relationship between cultural characteristics and pathogenicity in Ceratocystis ulmi** ..... D. F. Hindal, E. J. Harner, and W. L. MacDonald

112 **Serological distinction of watermelon mosaic virus isolates** ..... D. E. Purcifull and E. Hiebert

PHYSIOLOGY AND BIOCHEMISTRY

117 **Regulation of endopolygalacturonate transeliminase in an adenosine 3′,5′-cyclic monophosphate-deficient mutant of Erwinia carotovora** ..... M. S. Mount, P. M. Berman, R. P. Mortlock, and J. P. Hubbard

121 **Effect of plasmolytica on the hypersensitive reaction induced by bacteria in tobacco: a comparison with the virus-induced hypersensitive reaction** ..... A. Gulyás, B. Barna, Z. Klement and G. L. Farkas

125 **Replication and properties of cowpea chlorotic mottle virus in resistant cowpeas** ..... S. D. Wyatt and C. W. Kuhn

ECOLOGY AND EPIDEMIOLOGY

130 **Eutypella canker of maple: ascospore discharge and dissemination** ..... D. W. Johnson and J. E. Kuntz

136 **The effect of chlorophenoxy acid herbicides on growth and rhizomorph production of Armillariella mellea** ..... J. Pronos and R. F. Patton

142 **Evidence for random local spread of aphid-borne mild yellow-edge virus in strawberries** ..... R. H. Converse, J. Seely, and L. W. Martin

GENETICS

145 **Inheritance of slow rusting of barley infected with Puccinia hordei and selection of latent period and number of uredia** ..... D. A. Johnson and R. D. Wilcoxson

152 **Variability of Xanthomonas oryzae: specificity in infection of rice differentials** ..... T. W. Mew and C. M. Vera Cruz

RESISTANCE

156 **Pathogenicity of Puccinia coronata from buckthorn and from oats adjacent to and distant from buckthorn** ..... M. D. Simons, P. G. Rothman, and L. J. Michel

159 **Susceptibility of pods of different peanut genotypes to Aspergillus flavus group fungi** ..... A. C. Kushalappa, J. A. Bartz, and A. J. Norden

POSTHARVEST PATHOLOGY AND MYCOTOXINS

163 **Nitrogen nutrition of tomato plants and susceptibility of the fruit to bacterial soft rot** ..... J. A. Bartz, G. M. Geraldson, and J. P. Crill

167 **Population dynamics of Erwinia carotovora and pectolytic Clostridium spp. in relation to decay of potatoes** ..... M. C. M. Pérombelon, J. Gullings-Handley, and A. Kelman

DISEASE CONTROL AND PEST MANAGEMENT

174 **Efficacy and in vitro activity of two systemic acylalanines and ethazole for control of Phytophthora cinnamomi root rot of azalea** ..... D. M. Benson

SPECIAL TOPICS

179 **Sugarcane mosaic virus: shape of the inoculum-infection curve near the origin** ..... J. L. Dean

TECHNIQUES

182 **A selective medium for the isolation and quantification of Pseudomonas solanacearum from soil** ..... W. C. Nesmith and S. F. Jenkins, Jr.

186 **Comparison of three serodiagnostic assays for detection of Corynebacterium sepedonicum** ..... S. A. Slack, A. Kelman, and J. B. Perry

190 **The use of enzyme-linked immunosorbent assay for detection of citrus tristeza virus** ..... M. Bar-Joseph, S. M. Garnsey, D. Gonsalves, M. Moscovitz, D. E. Purcifull, M. F. Clark, and G. Loebenstein

No. 3 — MARCH

195 **Elvin Charles Stakman, 1885-1979** ..... C. M. Christensen

196 **Lee Milo Hutchins, 1888-1978** ..... L. C. Cochran and E. P. Imle

197 **Merle Tyson Hilborn, 1907-1978** ..... R. C. McCrum, F. E. Manzer, and R. J. Campana

198 **Letter to the Editor: The concept of durable resistance** ..... R. Johnson

DISEASE DETECTION AND LOSSES

200 **Variation in the distribution of citrus ringspot and psorosis viruses within citrus hosts** ..... L. W. Timmer and S. M. Garnsey

ETIOLOGY

204 **Evidence for the involvement of soilborne mites in Pythium pod rot of peanut** ..... H. D. Shew and M. K. Beute

208 **Characterization of the bacterium inciting bean wildfire in Brazil** ..... R. de L. D. Ribeiro, D. J. Hagedorn, R. D. Durbin, and T. F. Uchytil

213 **Bacterial foot rot of rice caused by a strain of Erwinia chrysanthemi** ..... M. Goto

217 **Legume yellows virus, a new persistent aphid-transmitted virus of legumes in California** ..... J. E. Duffus

222 **Electron microscopy of flagellated protozoa associated with marchitez sorpresiva disease of African oil palm in Ecuador** ..... D. L. Thomas, R. E. McCoy, R. C. Norris, and A. S. Espinoza

PHYSIOLOGY AND BIOCHEMISTRY

227 **Inhibition of photosynthesis and transpiration in soybean infected by Microsphaera diffusa** ..... J. S. Mignucci and J. S. Boyer

231 **The influence of exposure temperature and relative humidity on the response of pinto bean foliage to sulfur dioxide** ..... D. L. Rist and D. D. Davis

ECOLOGY AND EPIDEMIOLOGY

236 **A canker of red maples associated with oviposition by the narrow-winged tree cricket** ..... G. S. Taylor and R. E. B. Moore

240 **Population dynamics of Cylindrocladium crotalariae microsclerotia in naturally-infested soil** ..... P. M. Phipps and M. K. Beute

244 **Interactions of Collembola and microflora of cotton rhizosphere** ..... E. A. Wiggins and E. A. Curl

250 **Charcoal stalk rot of sorghum: Effect of environment on host-parasite relations** ..... G. N. Odvody and L. D. Dunkle

VECTOR RELATIONS

255 **Beetle transmission of cowpea chlorotic mottle virus** ..... H. A. Hobbs and J. P. Fulton

GENETICS

257 **Inheritance of virulence of Melampsora lini race 218** ..... G. D. Statler

260 **Heterogeneous reaction of shattercane to Periconia circinata and its host-specific toxin** ..... L. D. Dunkle

263 **Hybridization of Typhula ishikariensis and T. idahoensis** ..... A. A. Christen and G. W. Bruehl

267 **Genetics, pathogenicity, and stability of carbendazim-resistant isolates of Venturia pirina** ..... E. Shabi and T. Katan

270 **Inheritance of resistance in soybeans to physiologic races 5, 6, 7, 8, and 9 of Phytophthora megasperma var. sojae** ..... F. A. Laviolette, K. L. Athow, E. H. Mueller, and J. R. Wilcox

RESISTANCE

272 **Screening for resistance to and pathogenic specialization of Fusarium oxysporum f. sp. phaseoli, the causal agent of bean yellows** ..... R. de L. D. Ribeiro and D. J. Hagedorn

POSTHARVEST PATHOLOGY AND MYCOTOXINS

277 **Pleospora bjoerlingii in the USA** ..... W. M. Bugbee

DISEASE CONTROL AND PEST MANAGEMENT

279 **Effects of three herbicides on selected pathogens and diseases**

of turfgrasses ..... G. W. Karr, Jr., R. T. Gudauskas, and R. Dickens

283 Growth retardants mitigate Verticillium wilt and influence yield of cotton ..... D. C. Erwin, S. D. Tsai, and R. A. Khan

288 Interaction between Meloidogyne hapla and Verticillium albo-atrum in the Verticillium wilt disease of potato ..... B. J. Jacobsen, D. H. MacDonald, and H. L. Bissonette

SPECIAL TOPICS

293 System of nomenclature for races of Puccinia graminis f. sp. avenae ..... J. W. Martens, A. P. Roelfs, R. I. H. McKenzie, P. G. Rothman, D. D. Stuthman, and P. D. Brown

TECHNIQUES

295 Wet-sieving floatation technique for isolation of sclerotia of Sclerotium cepivorum from muck soil ..... R. S. Utkhede and J. E. Rahe

298 Influence of inoculum concentration on infection of red pine seedlings by Gremmeniella abietina ..... C. E. Dorworth

301 Quantitative inoculation of eastern cottonwood leaf tissue with Melampsora medusae under controlled conditions ..... L. Shain and P. L. Cornelius

304 Erratum

No. 4 — APRIL

305 Letter to the Editor:
A serogrouping concept for legume comoviruses ..... J. P. Fulton and H. A. Scott

DISEASE DETECTION AND LOSSES

307 Disease losses in carnations infected with *Gibberella zeae* ..... R. W. Stack, R. K. Horst, P. E. Nelson, and R. W. Langhans

ETIOLOGY

312 Morphology and viruslike particle content of *Helminthosporium victoriae* colonies regenerated from protoplasts of normal and diseased isolates ..... S. A. Ghabrial, R. S. Sanderlin, and L. A. Calvert

316 Serogroups of *Erwinia carotovora* potato strains determined with diffusible somatic antigens ..... S. H. De Boer, R. J. Copeman, and H. Vruggink

320 Host specificity in the genus *Agrobacterium* ..... A. R. Anderson and L. W. Moore

324 *Erwinia chrysanthemi:* A comparative study of phenotypic properties of strains from several hosts and other *Erwinia* species ..... R. S. Dickey

330 Role of conidia of *Botryosphaeria dothidea* in the natural spread of peach tree gummosis ..... D. J. Weaver

335 *Pseudomonas morsprunorum*, the cause of bacterial canker of sour cherry in Michigan, and its epiphytic association with *P. syringae* ..... B. A. Latorre and A. L. Jones

340 Identification, seed transmission, and host range pathogenicity of a California isolate of melon necrotic spot virus ..... R. Gonzalez-Garza, D. J. Gumpf, A. N. Kishaba, and G. W. Bohn

346 Properties of blackgram mottle virus ..... H. A. Scott and H. C. Phatak

349 Effect of simulated saline cooling tower drift on tree foliage ..... B. A. Francis and C. R. Curtis

354 **Phloem necrosis of elms: Symptoms and histopathological observations in tolerant hosts** ..... E. J. Braun and W. A. Sinclair

CYTOLOGY AND HISTOLOGY

359 **Mycoparasitic relationships: Cytology of the *Sphaerotheca fuliginea-Tilletiopsis* sp. interaction** ..... H. C. Hoch and R. Provvidenti

363 **Cytological alterations in cells infected with corn leaf aphid-specific isolates of barley yellow dwarf virus** ..... C. C. Gill and J. Chong

PHYSIOLOGY AND BIOCHEMISTRY

369 **Changes in barley leaf ribonucleases during early stages of infection by *Erysiphe graminis* f. sp. *hordei*** ..... A. K. Chakravorty and K. J. Scott

372 **Production of plant cell wall degrading enzymes by *Phoma medicaginis* f. sp. *pinodella*** ..... A. J. Anderson and M. L. Powelson

376 **Inhibition of ribulose 1,5-bisphosphate carboxylase by a toxin isolated from *Pseudomonas tabaci*** ..... L. M. Crosthwaite and S. J. Sheen

ECOLOGY AND EPIDEMIOLOGY

380 **Analysis of factors affecting dispersal of *Podosphaera leucotricha* conidia** ..... T. B. Sutton and A. L. Jones

384 **Suppression of *Fusarium roseum* 'Avenaceum' by soil microorganisms** ..... Y. S. Lin and R. J. Cook

389 **Decline in numbers and inoculum potential of *Sclerotium oryzae* in field soil** ..... W. W. Bockus and R. K. Webster

VECTOR RELATIONS

393 **Evidence for noncirculative transmission of Pierce's disease bacterium by sharpshooter leafhoppers** ..... A. H. Purcell and A. H. Finlay

396 **Protein coats of two strains of cucumber mosaic virus affect transmission by *Aphis gossypii*** ..... A. Gera, G. Loebenstein, and B. Raccah

RESISTANCE

400 **Reselection for improved resistance of wheat to stripe rust** ..... J. M. Krupinsky and E. L. Sharp

405 **A method for field evaluation of wheats for low receptivity to infection by *Puccinia graminis* f. sp. *tritici*** ..... J. B. Rowell and D. V. McVey

410 **Compartmentalization of decay in red maple and hybrid poplar trees** ..... W. C. Shortle

POSTHARVEST PATHOLOGY AND MYCOTOXINS

414 **The effect of plant age, storage, moisture, and genotype on storage rot evaluation of sugarbeet** ..... W. M. Bugbee

DISEASE CONTROL AND PEST MANAGEMENT

417 **Biological control of Pythium root rot of table beet with *Corticium* sp.** ..... H. C. Hoch and G. S. Abawi

TECHNIQUES

420 **A method for uniform infection of seedling and adult cereal plants by *Puccinia graminis* f. sp. *tritici*** ..... K. Mortensen, G. J. Green, and J. Atkinson

424 **Reuse of coated enzyme-linked immunosorbent assay plates** ..... M. Bar-Joseph, M. Moscovitz, and Y. Sharafi

427 **A quantitative technique for evaluating cotton for root-knot nematode resistance** ..... R. L. Shepherd

ETIOLOGY

441 **Host plant reactions, some properties, and serology of Peru tomato virus** ..... C. E. Fribourg

446 **Host plant reactions, some properties, and serology of wild potato mosaic virus** ..... R. A. C. Jones and C. E. Fribourg

467 **Strains of soybean mosaic virus: Classification based on virulence in resistant soybean cultivars** ..... E.-K. Cho and R. M. Goodman

471 **Maclura mosaic virus—An elongated plant virus of uncertain classification** ..... N. Plese, R. Koenig, D. E. Lesemann, and R. F. Bozarth

476 **Insect wounds as infection sites for *Hypoxylon mammatum* on trembling aspen** ..... N. A. Anderson, M. E. Ostry, and G. W. Anderson

504 **Isolation and characterization of peanut stunt virus from alfalfa in Spain** ..... J. R. Diaz-Ruiz, J. M. Kaper, H. E. Waterworth, and J. C. Devergne

CYTOLOGY AND HISTOLOGY

456 **Viability of *Venturia inaequalis* in chlorotic flecks resulting from fungicide application to infected *Malus* leaves** ..... H. C. Hoch and M. Szkolnik

PHYSIOLOGY AND BIOCHEMISTRY

517 **Serological relationships among strains of *Erwinia chrysanthemi*** ..... M. Yakrus and N. W. Schaad

ECOLOGY AND EPIDEMIOLOGY

436 **Use of fluorescent antibodies to study the survival of *Phytophthora megasperma* and *P. cinnamomi* zoospores in soil** ..... J. D. MacDonald and J. M. Duniway

453 **Influence of *Glomus fasciculatus* and soil phosphorus on Verticillium wilt of cotton** ..... R. M. Davis, J. A. Menge, and D. C. Erwin

483 **Verticillium wilt disease of cotton: Influence of inoculum density in the field** ..... L. J. Ashworth, Jr., O. C. Huisman, D. M. Harper, L. K. Stromberg, and D. M. Bassett

490 **Verticillium wilt disease of tomato: Influence of inoculum density and root extension upon disease severity** ..... L. J. Ashworth, Jr., O. C. Huisman, D. M. Harper, and L. K. Stromberg

500 **Role of Mycosphaerella ascospores in stem-end rot of papaya fruit** ..... K. F. Chau and A. M. Alvarez

510 **Occurrence, dissemination, and survival of plant pathogens in surface irrigation ponds in southern Georgia** ..... F. M. Shokes and S. M. McCarter

RESISTANCE

431 **Inheritance of resistance to seed transmission of barley stripe mosaic virus in barley** ..... T. W. Carroll, P. L. Gossel, and E. A. Hockett

450 **Influence of genes for resistance to *Puccinia coronata* from *Avena sterilis* on yield and rust reaction of cultivated oats** ..... M. D. Simons

497 **Host studies and reactions of rice cultivars to *Meloidogyne graminicola*** ..... C.-P. Yik and W. Birchfield

DISEASE CONTROL AND PEST MANAGEMENT

433 **A new systemic fungicide against the downy mildew disease of cucumbers** ..... Y. Cohen

463 **Identification of three different loci controlling kasugamycin resistance in *Pyricularia oryzae*** ..... M. Taga, H. Nakagawa, M. Tsuda, and A. Ueyama

480 **Control of *Rhizoctonia solani* on cotton seedlings with *Pseudomonas fluorescens* and with an antibiotic produced by the bacterium** ..... C. R. Howell and R. D. Stipanovic

TECHNIQUES

493 **A specific fluorescent antibody for detection of syringomycin in infected peach tree tissues** ..... V. A. Paynter and R. Alconero

ABSTRACTS

525 **Abstracts of papers presented at the 1979 meeting of the Southern Division**

534 **Abstracts of papers presented at the 1979 meeting of the Potomac Division**

539 **Abstracts of papers presented at the 1979 meeting of the North Central Division**

No. 6 — JUNE

545 **Letter to the Editor: Pattern Analysis in Epidemiological Evaluation of Cultivar Resistance** ..... J. P. Thompson and R. G. Rees

DISEASE DETECTION AND LOSSES

559 **Diagnosis of Mal Secco Disease in Lemon by Enzyme-Linked Immunosorbent Assay** ..... A. Nachmias, M. Bar-Joseph, Z. Solel, and I. Barash

649 **Detection of Barley Yellow Dwarf Virus by Enzyme-Linked Immunosorbent Assay** ..... R. M. Lister and W. F. Rochow

ETIOLOGY

605 **Soybean Seed Lot Contamination by *Melanopsichium pennsylvanicum* Smut Galls** ..... C. T. Schiller and J. B. Sinclair

612 **Transmission, Host Range, and Serological Properties of the Viruses That Cause Lettuce Speckles Disease** ..... B. W. Falk, J. E. Duffus, and T. J. Morris

CYTOLOGY AND HISTOLOGY

556 **Histopathology of Resistant and Susceptible Tomato Fruit Infected with *Rhizoctonia solani*** ..... A. Bassi, Jr., E. L. Moore, and W. E. Batson, Jr.

592 **Somatic Nuclear Division in *Tilletia* Species Pathogenic on Wheat** ..... B. J. Goates and J. A. Hoffmann

PHYSIOLOGY AND BIOCHEMISTRY

550 **The Mode of Action of Alternaric Acid on *Myrothecium verrucaria*** ..... C. C. Reilly and D. Gottlieb

576 **Expression of Disease Reaction Types in Soybean Callus from Resistant and Susceptible Plants** ..... M. J. Holliday and W. L. Klarman

582 **Symptom Expression and Free Sterol and Fatty Acid Composition of Flue-cured Tobacco Plants Exposed to Ozone** ..... L. E. Trevathan, L. D. Moore, and D. M. Orcutt

599 **Induction of Polygalacturonase from *Rhizoctonia solani* by Cotton Seed and Hypocotyl Exudates** ..... L. W. Brookhouser and A. R. Weinhold

602 **Influence of Carbon Sources, Amino Acids, and Water Potential on Growth and Sporulation of *Fusarium moniliforme*** ..... W. H. Hsieh, W. C. Snyder, and S. N. Smith

667 **Host-Selective Toxins from *Alternaria citri*** ..... K. Kohmoto, R. P. Scheffer, and J. O. Whiteside

675 **Role of Pectolytic Enzymes and Galacturonic Acid in Citrus Fruit Decay Caused by *Penicillium digitatum*** ..... C. R. Barmore and G. E. Brown

ECOLOGY AND EPIDEMIOLOGY

562 **Cultivar, Environment, and Fungicide Effects on Foliar Disease Losses in Soybeans** ..... P. A. Backman, R. Rodriguez-Kabana, J. M. Hammond, and D. L. Thurlow

565 **Streptomycin Resistance in *Erwinia amylovora*** ..... M. N. Schroth, S. V. Thompson, and W. J. Moller

569 **Soybean Mosaic Virus: Infection of Soybean Seed Parts and Seed Transmission** .... G. R. Bowers, Jr., and R. M. Goodman

586 **Seasonal Patterns of Ascospore Discharge by *Leptosphaeria maculans* in Relation to Blackleg of Oilseed Rape** .....D. C. McGee and G. A. Petrie

621 **A Variant of Cowpea Chlorotic Mottle Virus Obtained by Passage Through Beans** .....C. W. Kuhn and S. D. Wyatt

655 **Field Variants of Barley Yellow Dwarf Virus: Detection and Fluctuation During Twenty Years** .....W. F. Rochow

GENETICS

634 **Mutations for Change of Race in Cultures of *Xanthomonas vesicatoria*** ..... D. Dahlbeck and R. E. Stall

641 **Genetics of Resistance to Physiologic Races of *Phytophthora megasperma* var. *sojae* in the Soybean Cultivar Tracy** .....K. L. Athow, F. A. Laviolette, and J. R. Wilcox

661 **Inheritance of Pathogenicity of Culture 70-1, Race 1, of *Puccinia recondita tritici*** ..... G. D. Statler

672 **A Gene for Resistance to *Puccinia graminis* f. sp. *tritici* That is Present in Wheat Cultivar H-44 but not in Cultivar Hope** ..... G. J. Green and P. L. Dyck

RESISTANCE

573 **Mechanism of Increased Susceptibility of Bleached Pea Seeds to Seed and Seedling Rot** ..... R. Loria and M. L. Lacy

579 **Relationship Between Ascorbic Acid and Resistance in Tomato Plants to *Meloidogyne incognita*** .....O. Arrigoni, G. Zacheo, R. Arrigoni-Liso, T. Bleve-Zacheo, and F. Lamberti

643 **Influence of Specific Combining Ability and Sex of Gametes on Transmission of *Ceratocystis ulmi* Resistance in *Ulmus*** .....A. M. Townsend

679 **Testing of *Pinus pinea* and *P. pinaster* Progenies for Resistance to *Cronartium flaccidum*** ..... P. Raddi, L. Mittempergher, and F. Moriondo

POSTHARVEST PATHOLOGY AND MYCOTOXINS

589 **Fluorescence Produced by *Aspergillus flavus* in Association with Other Fungi in Autoclaved Corn Kernels** ..... D. T. Wicklow and C. W. Hesseltine

DISEASE CONTROL AND PEST MANAGEMENT

637 **Evaluation of Chemicals and Application Methods for Control of Bacterial Wilt of Tomato Transplants** .....J. M. Enfinger, S. M. McCarter, and C. A. Jaworski

645 **The Systemic Antifungal Activity of Ridomil against *Phytophthora infestans* on Tomato Plants** ..... Y. Cohen, M. Reuveni, and H. Eyal

684 **Effect of Soil Fumigation on the Apple Replant Disease in Washington**.....R. P. Covey, Jr., N. R. Benson, and W. A. Haglund

SPECIAL TOPICS

624 **Ozone and Sulfur Dioxide Effects on Reproduction and Host-Parasite Relationships of Selected Plant-Parasitic Nematodes** .....D. E. Weber, R. A. Reinert, and K. R. Barker

629 **Serological Relationships Among Anastomosis Groups of *Rhizoctonia solani*** ..... G. C. Adams, Jr., and E. E. Butler

TECHNIQUES

609 **A Semi-Micro Method for the Quantitation of Sesquiterpenoid Stress Metabolites in Potato Tuber Tissue** ..... J. W. D. M. Henfling and J. Kuć

618 **An Efficient Technique for Inducing Profuse Sporulation of *Alternaria* Species** ..... E. A. Shahin and J. F. Shepard

663 **A Rapid and Sensitive Microbiological Assay for Phaseolotoxin** ..... B. J. Staskawicz and N. J. Panopoulos

682 **A Rapid Slide-Mount Technique for Agar-Grown Fungal Cultures** ..... H. J. Larsen, Jr., and R. P. Covey, Jr.

686 **Erratum**

No. 7 — JULY

687 **Harry L. Keil, 1915-1978** ..... T. van der Zwet

DISEASE DETECTION AND LOSSES

776 **Effect of Crown Rust on Oat Groat Protein** ..... L. L. Singleton, D. D. Stuthman, and M. B. Moore

ETIOLOGY

706 **Inhibition of Soybean Hypocotyl Elongation by *Rhizoctonia solani*** ..... C. R. Grau and C. A. Martinson

710 **Compartmentalization of Discolored Wood in Heartwood of Red Oak** ..... A. L. Shigo and W. C. Shortle

730 **Wilt and Dieback of Mexican Lime Caused by *Fusarium oxysporum*** ..... L. W. Timmer, S. M. Garnsey, G. R. Grimm, N. E. El-Gholl, and C. L. Schoulties

748 **Symptomatological, Serological, and Electrophoretic Diversity of Isolates of Andean Potato Latent Virus from Different Regions of the Andes** ..... R. Koenig, C. E. Fribourg, and R. A. C. Jones

778 ***Fusarium moniliforme* as a Cause of Stem and Crown Rot of Asparagus and Its Association with Asparagus Decline** ..... S. A. Johnston, J. K. Springer, and G. D. Lewis

CYTOLOGY AND HISTOLOGY

738 **Intracellular Location of Beet Curly Top Virus Antigen as Revealed by Fluorescent Antibody Staining** ..... W. R. Thornley and D. L. Mumford

741 **Anatomic Changes Resulting from the Parasitism of Tomato by *Orobanche ramosa*** ..... B. W. Pennypacker, P. E. Nelson, and S. Wilhelm

764 **Interaction of *Phytophthora cinnamomi* and a Resistant Host, *Acacia pulchella*** ..... J. Tippett and N. Malajczuk

PHYSIOLOGY AND BIOCHEMISTRY

712 **Growth of and Oxalic Acid Production by *Cristulariella pyramidalis* on Selected Culture Media** ..... P. Kurian and D. A. Stelzig

717 **Photosynthesis, Transpiration, and Water Potential of Apple Leaves Infected by *Venturia inaequalis*** ..... R. A. Spotts and D. C. Ferree

734 **Hypersensitive Reactivity in Potato: Transition from Inactive to Active State Induced by Infection with an Incompatible Race of *Phytophthora infestans*** ..... N. Furuichi, K. Tomiyama, and N. Doke

VECTOR RELATIONS

736 **The Latent Period of Beet Curly Top Virus in the Beet Leafhopper, *Circulifer tenellus*, Mechanically Injected with Infectious Phloem Exudate** ..... A. C. Magyarosy and E. S. Sylvester

RESISTANCE

695 **Detrimental and Protective Effects of Rust in Flax Plants of Varying Age** ..... J. A. Hoes and D. G. Dorrell

720 **Interactions Between Virulent Isolates of *Cronartium quercuum* f. sp. *fusiforme* and Loblolly Pine Families of Varying Resistance** ..... H. R. Powers, Jr., and F. R. Matthews

722 **Low Infection Types Produced by *Puccinia graminis* f. sp. *tritici* and Wheat Lines with Designated Genes for Resistance** ..... A. P. Roelfs and D. V. McVey

753 **Graft Transmission of Systemic Resistance of Cucumber to Anthracnose Induced by *Colletotrichum lagenarium* and Tobacco Necrosis Virus** ..... A. E. Jenns and J. Kuć

757 **Inhibition of Soft-Rotting *Erwinia* spp. Strains by 2,4-dihydroxy-7-methoxy-2*H*-1,4-benzoxazin-3(4*H*)-one in relation to their Pathogenicity on *Zea mays*** ..... G. H. Lacy, S. S. Hirano, J. I. Victoria, A. Kelman, and C. D. Upper

POSTHARVEST PATHOLOGY AND MYCOTOXINS

715 **Correlation Between Climatic Data and Aflatoxin Contamination of Iranian Pistachio Nuts** ..... D. Danesh, H. Mojtahedi, R. Barnett, and A. Campbell

DISEASE CONTROL AND PEST MANAGEMENT

690 **Infusion and Translocation of Systemic Fungicides Applied to Seeds in Acetone** ..... N. R. O'Neill, G. C. Papavizas, and J. A. Lewis

702 **Effect of Aerated Steam on the Red-Rot Pathogen in Sugarcane Stalks** ..... S.-M. Yang

773 **Ethanol Treatment—A Valuable Technique for Foliar Biocontrol Studies of Plant Disease** ..... H. W. Spurr, Jr.

SPECIAL TOPICS

699 **DCNA-Benomyl Multiple Tolerance in Strains of *Botrytis cinerea*** ..... G. A. Chastagner and J. M. Ogawa

TECHNIQUES

688 **Sterilization Method Effects on Germination of Wood Decay Fungus Spores Observed by the Contact Agar Method** ..... E. L. Schmidt and D. W. French

No. 8 — AUGUST

781 **James Merrill Wallace, 1902-1979** ..... E. C. Calavan, P. R. Desjardins, and L. G. Weathers

782 **Letter to the Editor: Modeling Rhizosphere Infection** ..... C. A. Gilligan

DISEASE DETECTION AND LOSSES

824 **Identification of Maize Viruses and Mollicutes and Their Potential Insect Vectors in Peru** ..... L. R. Nault, D. T. Gordon, R. E. Gingery, O. E. Bradfute, and J. Castillo Loayza

854 **Isolation and Analysis of Double-Stranded RNA from Virus-Infected Plant and Fungal Tissue** ..... T. J. Morris and J. A. Dodds

ETIOLOGY

793 **Increased Growth of *Nicotiana glutinosa* as Partially Related to Accumulation of Ammonium-Nitrogen in Soil Fumigated with Methyl Bromide** ..... D. E. Millhouse and D. E. Munnecke

798 **Soybean Seed Decay: Sources of Inoculum and Nature of Infection** ..... K. T. Kmetz, C. W. Ellett, and A. F. Schmitthenner

846 **Predisposition to Seed Infection by *Phomopsis sojae* in Soybean Plants Infected by Soybean Mosaic Virus** ..... P. R. Hepperly, G. R. Bowers, Jr., J. B. Sinclair, and R. M. Goodman

CYTOLOGY AND HISTOLOGY

839 **Ultrastructural Effects in Zinnia Leaves of a Chlorosis-Inducing Toxin**

from *Pseudomonas tagetis* ..... S. M. Jutte and R. D. Durbin

PHYSIOLOGY AND BIOCHEMISTRY

789 α-L-Arabinofuranosidase from *Sclerotinia sclerotiorum:* Purification, Characterization, and Effects on Plant Cell Walls and Tissue ..... C. J. Baker, C. H. Whalen, R. Z. Korman, and D. F. Bateman

810 Status of Coumestrol and 4',7-Dihydroxyflavone in Alfalfa Foliage Exposed to Ozone ..... B. Hurwitz, E. J. Pell, and R. T. Sherwood

813 Increased Chlamydospore Production by *Phytophthora cinnamomi* Using Sterols and Near-Ultraviolet Light ..... L. Englander and W. Turbitt

ECOLOGY AND EPIDEMIOLOGY

785 *Thielaviopsis basicola:* A Component of the Pea Root Rot Complex in New York State ..... M. C. Blume and G. E. Harman

802 Effect of Volatile Compounds From Remoistened Plant Tissues on Growth and Germination of Sclerotia of *Sclerotium rolfsii* ..... M. K. Beute and R. Rodriguez-Kabana

869 Effect of Wetting and the Presence of Peanut Tissues on Germination of Sclerotia of *Sclerotium rolfsii* Produced in Soil ..... M. K. Beute and R. Rodriguez-Kabana

VECTOR RELATIONS

843 Dual Transmission of the Aster Yellows Mycoplasmalike Organism and the Oat Blue Dwarf Virus and Its Effect on Longevity and Fecundity of the Aster Leafhopper Vector ..... T. P. Hsu and E. E. Banttari

GENETICS

849 Host Resistance to Stewart's Disease in Maize ..... M. H. Blanco, M. S. Zuber, J. R. Wallin, D. V. Loonan, and G. F. Krause

859 Inheritance and Nature of Resistance in Beans to *Fusarium oxysporum* f. sp. *phaseoli* ..... R. de L. D. Ribeiro and D. J. Hagedorn

RESISTANCE

818 *Fusarium oxysporum* f. sp. *pisi,* Race 6: Occurrence and Distribution ..... W. A. Haglund and J. M. Kraft

POSTHARVEST PATHOLOGY AND MYCOTOXINS

829 Occurrence and Interaction of *Aspergillus flavus* with Other Fungi on Almonds ..... D. J. Phillips, B. Mackey, W. R. Ellis, and T. N. Hansen

834 Suppression of Postharvest Plant Pathogenic Fungi by Carbon Monoxide ..... M. A. El-Goorani and N. F. Sommer

865 Studies with *Mucor* Species Causing Postharvest Decay of Fresh Produce ..... W. L. Smith, Jr., H. E. Moline, and K. S. Johnson

DISEASE CONTROL AND PEST MANAGEMENT

806 Biological Control of Root-Knot Nematodes (*Meloidogyne* spp.) on Peach ..... G. R. Stirling, M. V. McKenry, and R. Mankau

862 Rice Residue Disposal Influences Overwintering Inoculum Level of *Sclerotium oryzae* and Stem Rot Severity ..... W. W. Bockus, R. K. Webster, C. M. Wick, and L. F. Jackson

TECHNIQUES

821 Storage and Use of *Phytophthora megasperma* var. *sojae* Ooospores as Inoculum ..... D. R. Kittle and L. E. Gray

832 Production of Conidia by *Cercospora kikuchii* in Culture ..... M. G. Vathakos and H. J. Walters

SYMPOSIUM ON SCLEROTINIA

875 ***Sclerotinia sclerotiorum:*** **History, Diseases and Symptomatology, Host Range, Geographic Distribution, and Impact** ..... L. H. Purdy

881 **Delimitation of the Economically Important Plant Pathogenic *Sclerotinia* Species** ..... L. M. Kohn

887 **Morphology, Cytology, and Physiology of *Sclerotinia* Species in Culture** ..... D. Le Tourneau

890 **Histology and Physiology of Pathogenesis in Plant Diseases Caused by *Sclerotinia* Species** ..... R. D. Lumsden

896 **Ecology of *Sclerotinia* Species** ..... P. B. Adams and W. A. Ayers

899 **Epidemiology of Diseases Caused by *Sclerotinia* Species** ..... G. S. Abawi and R. G. Grogan

904 **Control of Plant Diseases Caused by *Sclerotinia* Species** ..... J. R. Steadman

908 ***Sclerotinia* Species: Summary and Comments on Needed Research** ..... R. G. Grogan

ABSTRACTS

913 **Abstracts of Papers Presented at the 1979 Meeting of the Pacific Division**

No. 9 — SEPTEMBER

DISEASE DETECTION AND LOSSES

967 **Relationship of Bacterial Leaf Blight Severity to Grain Yield of Rice** ..... A. P. K. Reddy, D. R. MacKenzie, D. I. Rouse, and A. V. Rao

970 **Relationship Between Nitrogen Fertilization, Bacterial Leaf Blight Severity, and Yield of Rice** ..... A. P. K. Reddy, J. C. Katyal, D. I. Rouse, and D. R. MacKenzie

ETIOLOGY

928 **Mycoplasmalike Bodies Associated with Lethal Declines of Palms in Florida** ..... D. L. Thomas

955 **Pear Decline in Connecticut and Response of Diseased Trees to Oxytetracycline Infusion** ..... J. L. McIntyre, H. Schneider, G. H. Lacy, J. A. Dodds, and G. S. Walton

985 **Characterization of Belladonna Mottle Virus Isolates from Kansas and Iowa** ..... R. F. Lee, C. L. Niblett, J. D. Hubbard, and L. B. Johnson

CYTOLOGY AND HISTOLOGY

923 **The Disease Cycle and Control of Geranium Rust** ..... C. A. Harwood and R. D. Raabe

980 **Nuclear Changes Associated with Euphorbia Mosaic Virus Transmitted by the Whitefly** ..... K. S. Kim and E. M. Flores

993 **Stem Nematode Infection of Resistant and Susceptible Cultivars of Alfalfa** ..... B. M. Reed, P. E. Richardson, and C. C. Russell

PHYSIOLOGY AND BIOCHEMISTRY

942 **Influence of *Corynebacterium insidiosum* on Water Relations of Alfalfa** ..... R. Dey and N. K. Van Alfen

ECOLOGY AND EPIDEMIOLOGY

939 **Effects of Ozone and Sulfur Dioxide on the Host-Pathogen Relationship of Scotch Pine and *Scirrhia acicola*** ..... T. C. Weidensaul and S. L. Darling

961 **Occurrence of *Fusarium* Species in Roots and Stalks of Symptomless Corn Plants During the Growing Season** ..... T. Kommedahl, C. E. Windels, and R. E. Stucker

974 **Influence of Soil Inoculum Concentrations on Host Range and Disease Reactions Caused by Isolates of *Thielaviopsis basicola* and Comparison of Soil Assay Methods** ..... M. Tabachnik, J. E. DeVay, R. H. Garber, and R. J. Wakeman

977 **Effects of Controlled Night Temperatures on Incidence of Verticillium Wilt in Field-Grown Cotton** ..... E. B. Minton, J. R. Gipson, and J. E. Quisenberry

989 **Effect of Soil Temperature on the Field Infection of Potato Tubers by *Phytophthora infestans*** ..... N. Sato

RESISTANCE

946 **Resistance of *Phaseolus* Line WBR 133 to *Pseudomonas syringae*** ..... M. E. Daub and D. J. Hagedorn

951 **Hypocotyl Reactions and Glyceollin in Soybeans Inoculated with Zoospores of *Phytophthora megasperma* var. *sojae*** ..... E. W. B. Ward, G. Lazarovits, C. H. Unwin, and R. I. Buzzell

POSTHARVEST PATHOLOGY AND MYCOTOXINS

934 **Influence of Benomyl and Methyl 2-Benzimidazolecarbamate on Development of *Penicillium digitatum* in the Pericarp of Orange Fruit** ..... J. W. Eckert, M. J. Kolbezen, M. L. Rahm, and K. J. Eckard

TECHNIQUES

958 **Practical Nuclear Staining Procedures for Rhizoctonialike Fungi** ..... L. J. Herr

SYMPOSIUM ON PARTICULATES

998 **Symposium on Detection and Measurement of Primary and Secondary Airborne Particulates and Their Effects on Plants. Introduction** ..... I. A. Leone

998 **The Origins and Influence of Airborne Particles** ..... P. F. Fennelly

1002 **Airborne Salt Spray—Techniques for Experimentation and Its Effects on Vegetation** ..... B. C. Moser

1007 **Contamination of Soil and Vegetation by Atmospheric Deposition of Trace Elements** ..... A. L. Page and A. C. Chang

1011 **Effects of Airborne Particulates on Nitrogen Fixation in Legumes and Algae** ..... R. P. Sheridan

ABSTRACTS

1020 **Abstracts of Papers Presented at the Seventy-First Annual Meeting of the American Phytopathological Society**

No. 10 — OCTOBER

DISEASE DETECTION AND LOSSES

1125 **Serologic Detection of Bean Common Mosaic and Lettuce Mosaic Viruses in Seed** ..... B. Jafarpour, R. J. Shepherd, and R. G. Grogan

ETIOLOGY

1078 **Some Properties of *Erwinia amylovora* Bacteriophages** ..... D. F. Ritchie and E. J. Klos

1087 **Physical and Chemical Properties of Blueberry Shoestring Virus** ..... D. C. Ramsdell

1115 **Etiology of Necrotic Flecks on *Dendrobium* Blossoms** ..... J. Y. Uchida and M. Aragaki

PHYSIOLOGY AND BIOCHEMISTRY

1056 **Biological Activity and Specificity of a Toxin Produced by *Cladosporium fulvum*** ..... G. Lazarovits and V. J. Higgins

1062 **Purification and Partial Characterization of a Glycoprotein Toxin Produced by *Cladosporium fulvum*** ..... G. Lazarovits, B. S. Bhullar, H. J. Sugiyama, and V. J. Higgins

1092 **Fungitoxicity of Derivatives of *o*-Phenylphenol** ..... J. W. Eckert, O. F. Esuruoso, and J. Carey

1129 **Stimulation of Sexual Reproduction in the A^2 Mating Type of *Phytophthora cinnamomi* by a Substance in Avocado Roots** ..... G. A. Zentmyer

ECOLOGY AND EPIDEMIOLOGY

1072 **Model Simulations of Infection of Douglas-Fir Seedlings by *Fusarium oxysporum*** ..... W. J. Bloomberg

1084 **Effects of Dew-Period Temperature on Sporulation, Germination of Conidia, and Systemic Infection of Maize by *Peronosclerospora sacchari*** ..... M. R. Bonde and J. S. Melching

1096 **Endemic and Soilborne Nature of *Erwinia carotovora* var. *atroseptica*, a Pathogen of Mature Sugar Beets** ..... M. de Mendonça and M. E. Stanghellini

1100 **Survival of *Pseudomonas solanacearum* Race 3 in Plant Debris and in Latently Infected Potato Tubers** ..... J. Graham, D. A. Jones, and A. B. Lloyd

1106 **Environmental Effects on Inoculum Quality of Dormant Rust Uredospores** ..... M. V. Wiese and A. V. Ravenscroft

1118 **Perforation and Destruction of Pigmented Hyphae of *Gaeumannomyces graminis* by Vampyrellid Amoebae from Pacific Northwest Wheat Field Soils** ..... Y. Homma, J. W. Sitton, R. J. Cook, and K. M. Old

1122 **Evaluation of Weeds and Plant Refuse as Potential Sources of Inoculum of *Pseudomonas syringae* in Bacterial Canker of Cherry** ..... B. A. Latorre and A. L. Jones

GENETICS

1109 **Genetic Identification of Clones of *Armillaria mellea* in Coniferous Forests in Washington** ..... J. B. Anderson, R. C. Ullrich, L. F. Roth, and G. M. Filip

RESISTANCE

1051 **Alfalfa Seedling Resistance to *Phytophthora megasperma*** ..... J. A. G. Irwin, S. A. Miller, and D. P. Maxwell

1069 **Isolate Source and Daylight Intensity Effects on the Pathogenicity of *Verticillium dahliae* in Watermelon Seedlings** ..... Y. Ben-Yephet

1112 **Variability of *Cylindrocladium crotalariae* Response to Resistant Host Plant Selection Pressure in Peanut** ..... B. A. Hadley, M. K. Beute, and K. J. Leonard

SPECIAL TOPICS

1103 **Automated Analysis of Charts From Continuously Recording Weather Instruments** ..... R. C. Seem, M. C. Blume, and J. Barnard

TECHNIQUES

1132 **Resistance to Black Shank in the Field Predicted by a Test of Tobacco Seedlings** ..... G. S. Taylor and P. E. Waggoner

SYMPOSIUM ON WOOD DECAY

1136 **Stem Decay Perspectives—An Introduction to the Mechanisms of Tree Defense and Decay Patterns** ..... P. D. Manion and R. A. Zabel

1138 **Role of Stilbenes in Resistance of Wood to Decay** ..... J. H. Hart and D. M. Shrimpton

1143 **Dynamic Responses of Differentiated Sapwood to Injury and Infection** ..... L. Shain

1147 **Mechanisms of Compartmentalization of Decay in Living Trees** ..... W. C. Shortle

1151 **Mechanisms of Wood Decay and the Unique Features of Heartrots** ..... T. L. Highley and T. K. Kirk

1158 **An Expanded Concept of Tree Decay** ..... W. Merrill and A. L. Shigo

No. 11 — NOVEMBER

1161 **Robert Charles Cetas, 1922–1979** ..... A. F. Sherf, W. F. Mai, and M. Semel

1162 **Letter to the Editor**
On Comparing Values of Vanderplank's *r* ..... W. C. Fulton

DISEASE DETECTION AND LOSSES

1212 **Detection of Lily Symptomless Virus by Immunodiffusion** ..... D. H. Simmonds and B. G. Cumming

CYTOLOGY AND HISTOLOGY

1194 **Beet Western Yellows Virus in Phloem Tissue of *Thlaspi arvense*** ..... C. J. D'Arcy and G. A. de Zoeten

PHYSIOLOGY AND BIOCHEMISTRY

1202 **Ergosterol as a Measure of Fungal Growth** ..... L. M. Seitz, D. B. Sauer, R. Burroughs, H. E. Mohr, and J. D. Hubbard

1204 **Production, Properties, and Morphology of Bacteriocins from *Erwinia chrysanthemi*** ..... E. Echandi and J. W. Moyer

ECOLOGY AND EPIDEMIOLOGY

1164 **Factors Affecting Suppressiveness to *Rhizoctonia solani* in Soil** ..... Y. Henis, A. Ghaffar, and R. Baker

1176 **Verticillium Wilt on Resistant Tomato Cultivars in California: Virulence of Isolates from Plants and Soil and Relationship of Inoculum Density to Disease Incidence** ..... R. G. Grogan, N. Ioannou, R. W. Schneider, M. A. Sall, and K. A. Kimble

1199 **Spatial and Temporal Spread of Oat Crown Rust** ..... R. D. Berger and H. H. Luke

1215 **Aggressive and Non-aggressive Strains of *Ceratocystic ulmi* in North America** ..... J. N. Gibbs, D. R. Houston, and E. B. Smalley

GENETICS

1186 **Classification of Isolates of *Verticillium dahliae* Based on Heterokaryon Incompatibility** ..... J. E. Puhalla

1207 **Effect of Inbreeding on Pathogenicity in Race 8 of *Ustilago hordei*** ..... W. L. Pedersen and R. L. Kiesling

POSTHARVEST PATHOLOGY AND MYCOTOXINS

1181 **Incidence, Geographic Distribution, and Toxigenicity of *Fusarium* Species in South African Corn** ..... W. F. O. Marasas, N. P. J. Kriek, V. M. Wiggins, P. S. Steyn, D. K. Towers, and T. J. Hastie

DISEASE CONTROL AND PEST MANAGEMENT

1172 **Effect of Film Mulch, Trickle Irrigation, and DD-MENCS on Nematodes, Fungi, and Vegetable Yields in a Multicrop Production System** ..... A. W. Johnson, D. R. Sumner, and C. A. Jaworski

1190 **Comparison of Fungicide Application Methods for Systemic Control of Sugar Beet Powdery Mildew** ..... C. A. Frate, L. D. Leach, and F. J. Hills

1219 **Effect of Dibromochloropropane Fumigation on the Growth of *Sclerotium rolfsii* and on the Incidence of Southern Blight in Field-Grown Peanuts** ..... R. Rodríguez-Kabána, M. K. Beute, and P. A. Backman

TECHNIQUES

1169 **Use of Dienes' Stain to Detect Plant Diseases Induced by Mycoplasmalike Organisms** ..... J. Deeley, W. A. Stevens, and R. T. V. Fox

No. 12 — DECEMBER

DISEASE DETECTION AND LOSSES

1259 **Rapid Detection and Titer Evaluation of Viruses in Pepper by Enzyme-Linked Immunosorbent Assay** ..... S. Marco and S. Cohen

ETIOLOGY

1252 **Purification, Partial Characterization, and Serology of Blackeye Cowpea Mosaic Virus** ..... J. A. A. Lima, D. E. Purcifull, and E. Hiebert

CYTOLOGY AND HISTOLOGY

1278 **Ultrastructural Localization of Polyphenoloxidase Activity in Leaves of Healthy and Diseased Waterhyacinth** ..... R. D. Martyn, D. A. Samuelson, and T. E. Freeman

PHYSIOLOGY AND BIOCHEMISTRY

1301 **The Synergistic Role of Oxalic Acid and Endopolygalacturonase in Bean Leaves Infected by *Cristulariella pyramidalis*** ..... P. Kurian and D. A. Stelzig

ECOLOGY AND EPIDEMIOLOGY

1262 **Infection, Colonization, and Uredospore Production on Wayne Soybean by Four Cultures of *Phakopsora pachyrhizi*, the Cause of Soybean Rust** ..... J. S. Melching, K. R. Bromfield, and C. H. Kingsolver

1268 ***Phytophthora cinnamomi* in Hawaiian Forest Soils: Seasonal Variations in Population Levels** ..... J. T. Kliejunas and J. T. Nagata

1287 **Modeling of Phenomena Associated with Soil Suppressive to *Rhizoctonia solani*** ..... C. Wijetunga and R. Baker

1298 **Survival and Colonization Potential of *Fusarium moniliforme* var. *subglutinans* in Soil** ..... H. A. Bolkan, J. C. Dianese, and F. P. Cupertino

VECTOR RELATIONS

1266 **Transmission of Two Kinds of Rice Tungro-Associated Viruses by Insect Vectors** ..... H. Hibino, N. Saleh, and M. Roechan

GENETICS

1226 **Hypovirulence Conversion in *Endothia parasitica*** ..... S. L. Anagnostakis and P. R. Day

1293 **Transformation of *Erwinia herbicola* with Plasmid pBR322 Deoxyribonucleic Acid** ..... G. H. Lacy and R. B. Sparks, Jr.

RESISTANCE

1223 **Resistance to Cucumber Mosaic Virus Transmission by Aphids in *Cucumis melo*** ..... H. Lecoq, S. Cohen, M. Pitrat, and G. Labonne

1245 **Challenge Appressoria of *Erysiphe graminis* Fail to Breach Preformed Papillae of a Compatible Barley Cultivar** ..... J. R. Aist, H. Kunoh, and H. W. Israel

1250 **Resistance to Sugar Beet Storage Rot Pathogens** ..... W. M. Bugbee

POSTHARVEST PATHOLOGY AND MYCOTOXINS

1230 **Comparison of Thiabendazole and Genetic Resistance for Control of Sugar Beet Storage Rot** ..... W. M. Bugbee and D. F. Cole

DISEASE CONTROL AND PEST MANAGEMENT

1235 **Distribution and Persistence of Methyl 2-Benzimidazole Carbamate Phosphate Injected into American Elms in Late Spring or Early Fall** ..... J. E. Elliston and G. S. Walton

1239 **Comparison of Models for Estimating Yield Loss Caused by Leaf Rust *(Puccinia hordei)* on Zephyr Barley in New Zealand** ..... P. S. Teng, R. C. Close, and M. J. Blackie

1273 **Mobility and Persistence of Carbendazim and Thiabendazole Applied to Soil via Drip Irrigation** ..... Z. Solel, D. Sandler, and A. Dinoor

TECHNIQUES

1233 **Inoculation of Soybean Plants by Injection with Zoospores of *Phytophthora megasperma* var. *sojae*** ..... F. W. Schwenk, C. A. Ciaschini, C. D. Nickell, and D. G. Trombold

Aphanomyces euteiches
on pea, root rot complex in New York, 785
in soil, population estimation in soil, 541
Aphelenchoides, mycophagous on mycorrhizae, 1044
aphid, tobacco vein mottling virus transmitted by, 529
Aphis gossypii, cucumber mosaic virus vector, resistance to transmission, 1223
Appel, D. N., 534
apple
bitter rot of, temperature effect, 531
fruit disease of, control with fungicides, 1028
fruit russetting in, chlorothalonil effect on, 541
postharvest pathogens of, suppression by carbon monoxide, 834, **836**
Pseudomonas syringae on, susceptibility, 1023
replant disease of, soil fumigation effect in Washington, 684
scab of
fungicide related to, 456, **457–461**
management by prediction of factors, 1050
photosynthesis, transpiration, and water potential relation, 717
scar skin and dapple apple diseases of, phenols affected by, 35
sooty blotch and fly speck of, captafol sprays for control, timing, 1036
Apt, W. J., 1021
Aragaki, M., (1115)
Arbotect 20-S (see **fungicides,** specific)
Arceuthobium pusillum, on black spruce, development of, 1021
Arkansas bee virus, in plants, evidence for replication, 914
Armillaria mellea
on conifers, clone genetic identification, 1109

control by aerobic composting, 922
rhizomorph production by, herbicide effect on, 136
Arny, D. C., (541), (542), (1043)
Arrigoni, O., 579
Arrigoni-Liso, R., (579)
Arthrobacter crystallopoietes, plasmid curing agent for, plate assay, 1044
Ascochyta
caricae, carbon monoxide suppression of, 834
caricae-papayae, on papaya, role of ascospore in disease, 500
Ash, C. L., 539
Asher, J. H., Jr., (1028)
Ashworth, L. J., Jr., 483, 490, 913
asparagus
Fusarium moniliforme on, stem and crown rot caused by, 778
Fusarium moniliforme and F. oxysporum on, evaluation, 535
Aspergillus spp.
growth of, ergosterol for measuring, 1202
in soil, seed decay effect on population of, 1034
flavus
on almond, interaction with other fungi, 829
on corn, airborne populations of, 528
in corn kernels, fluorescence from, 589
on peanut, pod susceptibility to, 159
on pistachio nut
aflatoxin contamination from, 1026
in Iran, aflatoxin relation to climate, 715
in soil, isolation using incubation temperature, 529
nidulans, azasterol effect on, 538
niger, on onion, drying and storage atmosphere for control, 530
aster leafhopper, oat blue dwarf virus vector, detection using ELISA, 1021
aster yellows
on Dicentra spectabilis, 914
dual transmission with oat blue dwarf virus, relation to aster leafhopper, 843
Athow, K. L., (270), 641
Atkinson, J., (420)
Auld, D. L., (913)
Aureobasidium bolleyi, on barley, pathogenicity in California, 920
Averett, R., 534
avocado, Phytophthora cinnamomi on, sexual reproduction stimulated in, 1129, **1130**
Ayers, W. A., (896)
azalea, Phytophthora root rot of, chemical control of, 174

Babadoost, M., 1021
Backman, P. A., 562, 1021, (1219)
Bacon, C. W., (529)
bacteria
ice nucleation-active, relation to frost damage in potato, 1036
on root surfaces, growth promoting effect from, microbial interactions, 1034
in tobacco, relation of plasmolytica to hypersensitive reaction, 121
bacterial leaf blight, nitrogen relation, 970
bacterial mosaic, on wheat, Corynebacterium cause, 1023
bacteriocins, Erwinia chrysanthemi, properties of, 1204, **1206**
Baker, C. J., 789
Baker, F. A., Jr., 1021
Baker, R., (1164), 1287
Banttari, E. E., (843), 1021
Barash, I., (559)
Bar-Joseph, M., 190, 424, (559)
Barker, K. R., (532), (624)
barley
foot rot of, in Utah, 915
Fusarium roseum, Bipolaris sorokiniana, and Aureobasidium bolleyi pathogenic to, in California, 920
leaf rust of, yield loss from, model comparison, 1239
powdery mildew of, challenge appressoria of, 1245, **1246, 1248**
Rhynchosporium secalis on
race generation under various conditions, 916
resistance to, 921
slow rusting of, inheritance of, 145
spot blotch of, fungicides for control, 1040
barley stripe mosaic virus
seedborne, serologically specific electron microscopy for detection, 96, **97–99**
seed transmission of, inheritance of resistance to, 431
serodiagnosis of, 12
barley yellow dwarf virus
cytological alteration of cells infected with corn leaf isolates of, 363, **365–367**
detection by ELISA, 649
field variants of, detection during 20 years, 655
transmission to oats, by aphids, 540
Barmore, C. R., 675
Barna, B., (121)
Barnard, J., (1103)
Barnett, O. W., (530), (1038)

Bauer, W. D., 913
Baum, R. H., 1021
Baxter, L. W., Jr., (530)
Bayleton (see **fungicides,** specific)
bean (see also under genera of)
bacterial agglutinins in tissues of, 1020
black root rot of, soil factors affecting, 974
machismo, new disease in Colombia, 1029
root rot of, a simple interest disease, 1023
bean common mosaic virus, in seed, serological detection of, 1125
Bean, G. A., (535)
bean yellow mosaic virus, in red clover, protease activity related to resistance, 532
Bechthold, J. L., (1035)
beet curly top virus
intracellular location of, fluorescent antibody staining, 738, **739**
latent period of, transmission relation, 736
beet western yellows virus
in Thlaspi arvense, phloem tissue of, 1194, **1195–1197**
transmission, host range, and serology of, 612, **613**
begonia, powdery mildew of, control and epidemiology, 1043
Bell, D. K., (1048)
belladonna mottle virus, isolates of, in Kansas and Iowa, characterization of, 985
Belonolaimus longicaudatus
on bermudagrass, control, 529
on soybean, nematicide relation to soil pH, 532
Benepal, P. S., (536), (1039)
Bennett, C. P. A., (1032)
benomyl (see **fungicides,** specific)
Benson, D. M., 174, 525, (527), (532), (1045)
Benson, N. R., (684)
Ben-Yephet, Y., 1069
Berger, R. D., 1199
Bergman, J. W., (919)
Berman, P. M., (117)
bermudagrass, leaf mold of, causal agents, 529
Betula papyrifera, air pollution particulates effect on, 1024
Beute, M. K., (204), (240), (526), 802, 869, (1112), (1219)

Bhullar, B. S., (1062)
Bhuvaneswari, T. V., (913)
Bingaman, D., (1037)
Binning, L. K., (1029)
biological control
Acremonium zonatum for waterhyacinth, 1278
Ampelomyces quisqualis on powdery mildew of Catha edulis, 1047
Corticium for Pythium root rot of beet, 417
crown gall with Agrobacterium radiobacter strain 84, 1039
Endothia parasitica, hypovirulent strains of, 1226
foliar diseases
ethanol treatment for, 773
probit analysis in, 537
fungal interaction with Aspergillus flavus on almond, 829
Fusarium roseum 'Avenaceum' by soil microorganisms, 384
Meloidogyne spp. on peach, 806
mycoparasitism in Sphaerotheca fuliginea and Tilletiopsis sp., 359
onion white rot, 1047

Pseudomonas fluorescens for control of Rhizoctonia solani on cotton seedlings, 480
Rhizoctonia solani, suppressiveness in soil, factors affecting, 1164
rice residue for Sclerotium oryzae, 862
Trichoderma for Pythium on pea seed, 536
Trichoderma harzianum
for control of carnation, strawberry, and tomato fungi, 1031
for Rhizoctonia solani, 64, **65**
to several pathogens, 1048
vampyrellid amoebae for Gaeumannomyces graminis on wheat, 1118, **1120, 1121**
waterhyacinth with Cercospora and Acremonium, phenol relation, 1025
biomass, production and conversion to fuel, research horizon, 539
Bipolaris
hawaiiensis, on Dendrobium flowers in Hawaii, new combination, 1115
sorokiniana, on barley, pathogenicity in California, 920
Birchfield, W., (497), (533)
Birchmore, R. J., 1022
Bisessar, S., (101)
Bissonnette, H. L., (288)
Bjeldanes, L. F., (1026)
Black, L. L., (532)
blackeye cowpea mosaic virus, purification and serology of, 1252, **1255**
blackgram mottle virus, properties of, 3-6, **347, 348**
Blackie, M. J., (1239)
Blad, B. L., (1046)

Bolkan, H. A., 1298
Bonde, M. R., 1084
Bonman, J. M., 1022
Boone, D. M., (1048)
Botryodiplodia
hypodermia, on elm, pathogenicity, 539
theobromae, carbon monoxide suppression of, 834
Botryosphaeria sp., on Cornus stolonifer, stress effect, 542
dothidea
conidia of, role in peach tree gummosis, 330, **332**
on Cornus stolonifer, anthocyanin accumulation, 542
Botrytis
allii, on onion, bulb infection from, 542
cinerea
carbon monoxide suppression of, 834
on rose, in Iraq, 1026
strains of, DCNA-benomyl tolerance in, 699
on sugar beet, factors affecting, 414
sugar beet storage rot from, 1230, 1250
tomato postharvest decay of, fungicide-wax treatment for, 59, **62**
tulipae, tolerance to glycophene and vinclozolin, 914
Bower, L. A., (535)
Bowers, G. R., Jr., 569, (846)
Boyer, J. S., (227)

Cappellini, R. A., (1023)
Capsicum
annuum
seed treatment in, pH effect, 534
virus of, detection and comparison, using ELISA, 1259
frutescens, belladonna mottle virus of, in Kansas and Iowa, 985
captafol (see **fungicides,** specific)
carbendazim (see **fungicides,** specific)
Carey, J., (1092)
Carica papaya (see **papaya**)
Carley, H. E., 1012
Carlson, R. R., 1023
carnation
Fusarium wilt of, control with management program, 1027
Gibberella zeae on, disease losses from, 304
soilborne diseases of, Trichoderma for control, 1031
carnation mottle virus, dissociation reaction of, 424
carnation yellow fleck virus, dissociation reaction of, 424
Carroll, R. B., 534, (534)
Carroll, T. W., 12, 431
carrot, bacterial disease of, in Mexico, 915
Carter, L. M., (915)
Carvajal, G., (1030)
Carvin, R. P., 1023
Castanea mollissima, microorganism in nuts of, 530
Castillo Loayza, J., (824)
Catha edulis, powdery mildew of, biocontrol for, 1047
celery, Rhizoctonia root rot of, 1042
Cephalosporium acremonium, on corn, in Mississippi, 1034
Ceponis, M. J., 1023
Ceratocystis
ulmi
double-stranded RNA in, 542
on elm, factors affecting transmission, 643
isolates of
characterization of, 535
PPLO-type particles in, 1029
pathogenicity vs. cultural characteristics, 108
strains in North America, aggressive and non-aggressive, 1215, **1216**
tolerance to fungicides by, 69
wageneri, in soil, growth factors, 1031
Cercospora
arachidicola, on peanut, triphenyltin hydroxide for, 529
kikuchii

conidial production in, 832
growth and sporulation of, light-temperature effect, 530
on soybean, conidium morphology, 544
rodmanii, on waterhyacinth, biocontrol related to phenol, 1025
sojina, on soybeans, factors affecting, 562
Cercosporidium personatum, on peanut, triphenyltin hydroxide for, 529
Cerkauskas, R. F., (539)
Cerotoma trifurcata, cowpea chlorotic mottle virus vector, 255
CGA 64251 (see **fungicides,** specific)
Chaetosiphon fragaefolii, vector for strawberry mild yellow-edge virus, local spread, 142, *686*
Chakravorty, A. K., 369

Chen, M. D., (530), 914
Chen, T. A., (1024), (1025)
cherry
bacterial canker of
etiology, 335, **336, 337**
weeds and refuse as inoculum source, 1122
fruit disease of, control with fungicides, 1028
Phytophthora root and crown rot of, soil moisture effect, 1049
cherry leaf roll virus, pseudorecombinants of, 916
chestnut (see also **Castanea mollissima**)
weevil of, mycoflora relation, hot water treatment, 533
Chet, I., (64), (1031)
Chevone, B. I., 1024
Chiarappa, L., (1031)
Childs, J. L., 1024
chlorophenoxy acid (see **herbicides**)
chlorothalonil (see **fungicides,** specific)
Cho, E.-K., 467
Chong, J., (363)
Christ, B. J., 1024
Christen, A. A., 263, 914
Christensen, E. C., 195
Christie, R. G., (1028)
Ciaschini, C. A., (1233)
Circulifer tenellus, beet curly top virus vector, latent period of, 736
citrus
fruit decay of, Penicillium digitatum causing, enzyme and galacturonic acid role, 675
Penicillium digitatum on, fungicides inhibiting sporulation of, 934, **936, 937**
postharvest pathogens of, suppression by carbon monoxide, 834
Citrus aurantifolia, Fusarium wilt of, in Florida, 730, **731–733**
citrus blight, control of, 1024
citrus ringspot virus, distribution in hosts, 200, **202**
citrus tristeza virus
detection using ELISA, 190
dissociation reaction of, 424
immunodiffusion for rapid diagnosis of, 88
indexing of, 1028
Civerolo, E. L., (535)
Cladosporium
carpophilum, on peach, fungicides for, 529
cucumerinum
azasterol effect on, 538
tolerance to fenarimol, 914
fulvum
glycoprotein toxin from, purification and characterization of, 1062
toxin produced by, activity and specificity of, 1056
Clark, C. A., 526
Clark, M. F., (190)
Clark, M. R. M., 4
Clarke, B., 1024
Clavlin, L. E., (543)
Close, R. C., (1239)
Clostridium spp., potato decay related to population dynamics, 167
clove, Sumatra disease of, etiology and control, 1032
clover, Ladino-, fungicide and insecticide effect on persistence, 528
clover yellow vein virus, enzyme-immunoassay of, sap and additive effect of, 1038
Coakley, S. M., 1024
Cobb, F. W., Jr., (1031)
Cochliobolus
miyabeanus, on rice, leaf surface interaction, 527
sativus, amoebae causing perforations in, soil water potential effect, 914
Cochran, L. C., 196
Cocos nucifera, lethal decline of, mycoplasmalike organism in, 928, **929, 931, 932**
Cody, Y. S., 1025
Cohen, S., (1223), (1259)
Cohen, Y., 433, 645
Cole, A., 914
Cole, D. F., (1230)
Collembola, on cotton, relation to microflora, 244
Colletotrichum
atramentarium, on potato, relation to potato virus X, 917
dematium
on onion, bulb infection, 542
on soybean
dessicant effect on, 539
factors affecting, 562
falcatum, on sugarcane, aerated steam treatment for, 702, **703**
gloeosporioides
carbon monoxide suppression of, 834
on waterprimose, factors affecting, 525
graminicola, host specificity and age, 542
lagenarium, on cucumber, graft transmission of resistance to, 753
lindemuthianum
bean resistance to, races of, 913
hyphal wall degradation in, by plant extracts, 913
trifolii
on alfalfa
in eastern USA, 536
in North Carolina, 537
Collmer, A., 1025
Colocasia esculenta, Pythium root and corm rot of, in Hawaii, 918
Comandra umbellata, blister rust of, ultrastructure, 530
comoviruses (see **viruses and viroids**)
Confertobasidium olivaceoalbum, on pine, golden stain from, 539
control, plant pathogens by regulation and extension procedures, 918
Converse, R. H., 142
Cook, R. J., (384), 914, (1118)
Copeman, R. J., (316)
corn
aflatoxin in hybrids of, factors affecting, 1033
Erwinia spp. strains on, inhibition by DIMBOA, 757
fungi in kernels of, fluorescence effects, 589
Fusarium spp. on, distribution and toxigenicity in South Africa, 1181
Hyalothyridium leaf spot of, 536
Kabatiella zeae on, yield reduction from, 1043
nematodes on, spatial distribution of, 544
ozone effect on growth and yield, 21
Peronosclerospora sacchari, epidemiological factors, 1084
rhizosphere of, VA mycorrhizae in, 1044
root and stalk infection in, Fusarium causing, 961
rust effect on, 1029
Stewart's disease of, host resistance in, 849
stored-
mold contamination in, control, 1020
mycotoxins in Iraq, 1020
viruses of, in Peru, identification, 824
corn lethal necrosis, in Kansas, 1978 severe outbreak, 543
corn stunt spiroplasma, occurrence in Peru, 824
Cornelius, P. L., (301)
Cornus stolonifera
Botryosphaeria canker on, stress effect, 542
Botryosphaeria dothidea on, anthocyanin accumulation from, 542
Corsini, D., 914
Corticium sp., biological control use for Pythium root rot of beet, 417
Corynebacterium spp., on wheat, bacterial mosaic, 1023
insidiosum, on alfalfa, water relation, 942
nebraskense
herbicide effect on, 1043

selective medium for isolation of, from soil and plants, 82
sepedonicum, detection of, serodiagnostic assays for, 186
cotton
abstract of symposium introduction, 1049
bacterial inoculation of, necrosis related to darkness, 1033
black root rot of, factors and soil assay method, 974
damping-off of, suppression by Collembola insects, 526
integrated pest management for, 1027, 1048
Rhizoctonia solani on
polygalacturonase induced by host exudates, 599
Pseudomonas for control of, 480
rhizosphere of, Collembola and microfloral interaction, 244, **247, 248**
root-knot nematode on, quantification of resistance to, 427
seedling emergence in, cultural practice effect, 915
seed treatment of, solvent infusion method, 690
Verticillium wilt of
growth retardant effect, 283
inoculum density effect, 483, **487, 488**
row spacing and cultivar effect, 1039
temperature effect on, 977
Coscio, M. R., Jr., (1035)
Cotty, P. J., 1025
Covey, R. P., Jr., (682), 684
Cowling, W. A., 1025
cowpea chlorotic mottle virus
bean and cowpea variance of, 621, **622**
beetle transmission of, 255
replication and properties of, 125
strains of, derivation, 1035
Coyler, D. L., (915)
cranberry, Guignardia on, strains of, 1048
Crill, J. P., (163)
Cristulariella pyramidalis
in bean leaves, synergistic role of oxalic acid and endopolygalacturonase in, 1301
growth and oxalic acid production in, on media, 712
Cronartium
comandrae
on pine
phenology in Arkansas, 41
ultrastructure, 530
flaccidum, on Pinus spp., resistance to, 679
fusiforme, on pine callus, inhibitory substances in, 1032
quercuum fusiforme, on loblolly pine, isolate interactions, 720
ribicola
in gooseberry, haustorium structure of, 922
in pine, haustorium structure of, 922
crop losses, measurement of, 917, 921
Crosthwaite, L. M., 376
Crowley, C., (1026)
Cryptosporiopsis sp., on red maple, canker relation to oviposition by tree cricket, **236–238**
Csinos, A. S., 526
cucumber
Colletotrichum lagenarium and tobacco necrosis virus on, graft transmission of resistance to, 753
downy mildew of, systemic fungicide for, 433
in multicrop production system, fungi and nematodes on, factors affecting, 1172
Pseudomonas lachrymans on seeds of, 540
cucumber mosaic virus
aphid transmission affected by protein coat, 396
on pepper, detection by ELISA, 1259
resistance to, aphid transmission of, 1223
tabasco pepper reaction to, 532
Cucumis sativus (see **cucumber**)
Cucurbita pepo (see **squash**)
cucurbits, viruses of, in Iraq, 1039
Cumming, B. G., (1212)
Cunfer, B. M., 1025
Cupertino, F. P., (1298)
Curl, E. A., (244), 526
curly top virus, transmission to nonhost, dynamics of, 1047
Curtis, C. R., (349)
Cylindrocladium
crotalariae
microsclerotia of, population in naturally infested soil, 240
on peanut
effective nematode on, 526
resistance to, 530
variability in host response, 1112
floridanum, on peach seedlings, leaf trap for, 534
Cytospora kunzei
drought stress and wounding effect on, 1033
spore release and dispersal, 1033

Dactylella oviparasitica, biological control agent against Meloidogyne spp., on peach, 806
Dahlbeck, D., 634
Dalbulus maidis, vector for maize viruses in Peru, 824

fumigants
apple replant disease affected by, in Washington, 684
bacterial wilt of tomato transplants controlled by, 637
methyl bromide, tobacco growth related to nitrogen in soil from, 793
fungi, agar-grown, rapid slide-mount technique for, 682
fungicides (general) (see also **fungicides**, specific)
for apple scab, chlorotic flecks result related to, 456, **457–461**
barley spot blotch control, 1040
clover persistence affected by, 528
foliar-, for peanut diseases, 1036
fungicide-wax treatment for Botrytis on tomato, 59, **62**
Fusarium blight on turfgrass, 544
geranium rust controlled by, 923
seed treatments for covered kernel smut of sorghum, 1030
soybean foliar diseases affected by, 562
soybean seed infusion, for disease control, 543
systemic
acylalanines for Phytophthora root rot of azalea, 174
application method for sugar beet powdery mildew, 1190
infusion and translocation of, seed application, 690
and methyl bromide, effect on alfalfa stands, 921
for potato late blight, 538
for potato tubers, 534
St. Augustinegrass downy mildew controlled by, 1023
tolerance of Ceratocystis ulmi to, 69
wheat leaf rust controlled by, 544
fungicides (specific) (see also **fungicides**, general)
Arbotect 20-S, Dutch elm disease controlled by, 1046
Bayleton
fusiform rust on pine controlled by, 528
Sclerotinia sclerotium affected by, 920
for wheat powdery mildew, 1034
benomyl, Penicillium sporulation inhibited on orange fruits, 934, **936, 937**
captafol, spray timing for control of apple sooty blotch and fly speck, 1036
carbendazim
Penicillium spores inhibited on orange fruit, 934, **936, 937**
persistence in soil, under irrigation, 1273
Venturia pirina resistance to, 267, **268**
CGA 64251
for control of apple and stone fruit diseases, 1028
new broad spectrum, 1046
tree fruit disease controlled by, 1047
chlorothalonil, for apple fruit russetting, 541
DCNA, for postharvest control of tomato gray mold, 59, **62**
ethazole
for Phytophthora cinnamomi of avocado, 917
Phytophthora root rot of azalea, 174
fenarimol, Cladosporium cucumerinum and Venturia inaequalis tolerant to, 914
glycophene and vinclozolin, Botrytis tulipae tolerant to, 914
kasugamycin, Pyricularia oryzae resistant to, loci identification, 463
methyl benzimidazole carbamate phosphate persistent in elms, 1235
nuarimol and Sisthane, rose powdery mildew affected by, 915
o-phenylphenol derivatives, effect on Diplodia and Penicillium spp., 1092
Prochloraz, new-, wide application, 1022
propamocarb and prothiocarb, for downy mildew of cucumber, 433
Ridomil, systemic fungicide for tomato late blight, 645
Sisthane, new multiple use fungicide, 1023
Subdue, boxwood root rot controlled by, 535
thiabendazole
persistence in soil under irrigation, 1273
sugar beet storage rot controlled by, 1230
triphenyltin hydroxide, for Cercospora and Cercosporidium on peanut, 529
Furuichi, N., 734
Fusarium spp.
on barley, in Utah, 915
on corn, distribution and toxigenicity in South Africa, 1181
growth of, ergosterol for measuring, 1202
in irrigation pond, in Georgia, survival, 510
on vegetables in multicrop system, factors affecting, 1172
coeruleum, on potato tubers, 914
moniliforme
on asparagus
reaction technique, 535
stem and crown rot caused by, 778
on corn kernels, in Mississippi, 1034
growth and sporulation of, nutrients and water potential effect, 602
on symptomless corn roots and stalks, 961
moniliforme subglutinans
actinomycete-like organism antagonistic to, 525
on pine
resistance to, 527
variation, 525
on pitch pine, inoculum dispersal of, 1022
on slash pine in Florida, sporodochial development, 1034
survival and colonization in soil, 1298
oxysporum
on Douglas-fir, modeling infection of, 74, 1072
on lime, wilt and dieback from, 730, **731**
on soybean
herbicide effect, 534
tillage practice effect, 534
on symptomless corn roots and stalks, 961
on tomato, chlamydospore density relation to fumigation, 1037
oxysporum asparagi, on asparagus, reaction technique, 535
oxysporum cubense, on banana, protective layers in roots of, 1048
oxysporum dianthi, control with integrated pest management, 1027
oxysporum phaseoli, resistance to, 272, 859
oxysporum pisi, race 6, occurrence and distribution, 818
roseum
on barley, pathogenicity in California, 920
on symptomless corn roots and stalks, 961

roseum 'Avenaceum', suppression by soil microorganisms, 384
sambucinum, on potato tubers, 914
solani
cell walls degraded by pea enzymes, 1040
genetic analysis of sexuality, phytoalexin, and virulence, 1047
on pea, root rot complex in New York, 785
on sweet potato
storage rot from, 530
surface rot, 526
on symptomless corn roots and stalks, 961
solani pisi, on pea, seed and seedling rot from, 573
tricinctum, on symptomless corn roots and stalks, 961

sugar beet storage rot from, 1230, 1250
lingam
on cabbage, seed infection, 1022
on crucifer seed, use of 2,4-D for, 1037
medicaginis pinodella, on pea, cell wall degrading enzymes produced by, 372
tracheiphila, on lemon, diagnosis using ELISA, 559
Phomopsis sp., on soybean seed, inoculum source, 798
citri, carbon monoxide suppression of, 834
sojae
on soybean, dessicant effect on, 539
on soybean seed, predisposition by soybean mosaic virus, 846
Phymatotrichum omnivorum
sclerotia of, ammonia effect on cells, 1044
thematic maps for epidemiology study, in cotton, 1045
physiology of disease (see also **physiology of microorganisms**)
arabinofuranosidase, from Sclerotinia sclerotiorum, tissue effect, 789
dapple apple and scar skin effect on phenolics in apple, 35
host-pathogen relations, seedborne pathogens in, teaching demonstration, 1029
powdery mildew on soybean, photosynthesis and transpiration effect, 227, **228**
physiology of microorganisms (see also **physiology of disease**)
fungal growth, ergosterol as measurement, 1202
pectic enzyme regulation in Erwinia carotovora, mechanism of, 117
Phytophthora cinnamomi, chlamydospore production by, sterol effect, 813
phytoalexin
glyceollin, in soybean, Phytophthora effect, 951
pisatin, Fusarium solani inducing, 1040
in potato, sesquiterpenoids quantified, 609
Phytomonas, marchitez sorpresiva disease associated with, 222, **223-225**
Phytophthora spp.
on cherry rootstock, root and crown rot of, soil moisture effect, 1049
on citrus, carbon monoxide suppression of, 834
in irrigation ponds, in Georgia, survival, 510
cinnamomi
on Acacia pulchella, interaction, in Australia, 764, **765-770**
on avocado roots, sexual reproduction stimulated in, 1129, **1130**
on azalea, chemical control of, 174
chlamydospore production by, sterols and near-UV effect, 813
on clover, in West Sumatra, 1032
ethazole for control, 917
in forest soil, population changes in Hawaii, 1268
soil assay for, 1045
in soil, bait for isolation, 532
sporangium production of, variation, 917
zoospore survival in soil, fluorescent antibody technique for, 436, **438**

heveae, on rhododendron, dieback from, 525
infestans
on potato
climate effect on infection, 989
hypersensitivity to, race relation, 734
systemic fungicide for, 534, 538
spray schedule for, early blight effect, 1040
on tomato, Ridomil as systemic fungicide, 645
zoospores of, lyses by potato lectin, 527
megasperma
on alfalfa
seedling assay for resistance, 1039
seedling resistance to, 1051
on soybean
leaf expansion effect, 540
nitrogen effect, 539
zoospore survival of, in soil, fluorescent antibody technique, 436
megasperma sojae
oospore storage and use, 821
races of, in Wisconsin, 1047
races 5, 6, 7, 8, and 9 of, soybean resistance to, 270
on soybean
hypocotyl reaction and glyceollin in, 951, **953**
resistance expressed in tissue culture, 576
resistance to, races of, 641
zoospore inoculation of, 1233
nicotianae parasitica, on gloxinia, crown rot from, 1042
parasitica, on boxwood, control with Subdue, 535
parasitica nicotianae
races of, in Tennessee, 1033
on tobacco, resistance to, technique, 1132
Pieczarka, D. J., 1042
Pierce's disease
noncirculative transmission of, by leafhoppers, 393
weed management role, 1043
pine
Fusarium moniliforme subglutinans on, variation in virulence, 525
fusiform rust of, fungicide for control, 528
golden stain of, in heartwood, 539
loblolly-
Annosum root rot of, thinning effect on, 1048
brown spot needle blight of, ozone and sulfur dioxide effect on, 939
rust of, inhibitory substance in callus, 1032
mycorrhizal development in, herbicide effect on, 1041
pitch canker of, resistance to, 527
SO_2 poilution effect on, field technique, 918
winter injury to, 1040
pineapple
Fusarium moniliforme subglutinans on, fruit rot from, 1298
reniform nematode of, in Hawaii, phenamiphos for control, 1021
Pinus spp.
Comandra blister rust of, phenology in Arkansas, 41
Cronartium flaccidum on, resistance to, 679
echinata, blister rust of, ultrastructure, 530
monticola
Cronartium ribicola on, haustorium structure of, 922
wood decomposition by, 913
radiata, western gall rust of, growth effect, 1049
resinosa, Gremmeniella abietina on, inoculum concentration effect on, 398
Pirone, T. P., 531
pistachio
aflatoxin in, climatic relation, 715
Aspergillus flavus infection in, aflatoxin contamination, 1026
Verticillium dahliae on, polyethylene tarp for control, 913
Pitrat, M., (1223)
Pleospora bjoerlingii, on sugarbeet, storage rot from, **277**
Pleše, N., 471
Ploetz, R. C., 1042
Podosphaera leucotricha, conidial dispersal in, factors affecting, 380
pollution, air-
chlorides, plant uptake, 1045
HCl, bean and radish affected by, 1029
oxidants
ecophysiological analysis of damage, 1030
grapevine as bioindicator of, 1037
ozone
alfalfa, relation to coumestrol to dehydroxyflavone, 812
effect on corn, injury, growth, and yield loss, 21
interaction with
biopathogens, on soybean, 1042
Xanthomonas on bean, 101
open-top field chambers for study of, 15
potato tuber quality affected by, 1041
tobacco, symptom effect, sterol and fatty acid relation, 582
ozone and sulfur dioxide
effect on nematode reproduction and host-parasite relations, 624
needle injury to pines, 1048
pine brown spot needle blight host-pathogen relation affected by, 939
particulates
aspen and birch effect from elements in, 1024
nitrogen fixation affected by, in legumes and algae, symposium, 1011
plant effects, detection and measurement, symposium, 998
photochemical oxidants, open-top chambers for studying, 1031
rainfall chemistry, coulometric evaluation in Minnesota, 1035
saline aerosol drift, effect on tree foliage, 349
salt spray, vegetation effect, techniques, 1002
sulfur dioxide
on bean, temperature and humidity effects, 231
oat seedling bioassay, 1037
plant virus combinations affected by, 1036
white pine affected by, field technique, 918
trace elements, atmospheric deposition of, soil and plant effect, symposium, 1007
poplar
Septoria leaf spot in canker of, resistance to, 1041
Septotina podophyllina on, distribution in North Central USA, 1044
Populus spp., hybrids of, compartmentalization of decay in, 410
tremuloides
air pollution particulates effect on, 1024
Hypoxylon canker of
infection related to cicada oviposition site, 1041
insect wound as infection site, 476, **477**
Poria
latemarginata, hardwood hosts for, 527
tenuis, wood decay fungus, sterilization method for, 688
Porter, D. M., (1042), 1042
Portle, T., (542)
Possehl, E., (919)
postharvest diseases
of fresh produce, Mucor spp. causing, 865, **867**
fungal suppression by carbon monoxide, 834, **836**
potato
bacterial decay of, population dynamics of pathogen, 167
bacterial wilt of, survival in debris, 1100
Corynebacterium sepedonicum on, detection of, 186
frost damage to, relation to ice nucleation-active bacteria, 1036
Fusarium dry rot of, resistance to, 914
late blight of
early blight control related to, 1040
hypersensitive reaction, 734
systemic fungicide for, 538
Meloidogyne hapla on, soil temperature effect, 916
ozone effect on, tuber quality altered by, 1041
Phytophthora infestans on tubers of, soil temperature effect, 989
phytuberin metabolized by, 1033
sesquiterpenoids in, quantitation of, 609
systemic fungicide for, effect on Phytophthora infestans, 534
Verticillium wilt and Meloidogyne hapla interaction on, 288
potato leaf roll virus, aphid vector of, lack of multiplication in, 45
potato spindle tuber viroid, detection by gel electrophoresis, 1042
potato virus X
fungal interrelationships, 916
tobacco mosaic virus affected by, 531
potato virus Y, on pepper, detection by ELISA, 1259

Pseudomonas
albopreciptans, leaf entry by, 527
corrugata, on tomato, from symptomless alfalfa roots, 27
lachrymans, seed to root migration, 540
morsprunorum, on sour cherry in Michigan, association with P. syringae, 335, **336, 337**
phaseolicola
on bean, resistance to, 1040
chemotaxis by, 1039
genetic transformation in, 1028
phaseotoxin
from, ornithine carbamoyltransferase inhibited by, 1041
produced by, technique for assay, 663
plasmid RSF1010 cloning vector in, 1041
tripeptides toxin from, prevention of chlorosis by, 1046
pisi, on tobacco, lectin as agglutination factor, 536
putida, on bean, agglutinin characterization in, 916
savastanoi, olive and oleander strains of, properties and plasmids, 917
solanacearum
race 3, on potato tubers, survival, 1100
in soil, selective medium for, 182
on tomato, chemical control of, 637
syringae
on apple, susceptibility to, 1023
on bean
development of, 1030
resistance to, 946, **947, 948**
chemotaxis in, antibiotic relation, 916
on cherry, weed and refuse as inoculum source, 1122
dissemination by rain, 1035
on peach, syringomycin detection by fluorescent antibody technique, 493,**495**
on Prunus avium, electron microscopy of, 916
on safflower, resistance to, screening for, 919
on sour cherry, relation to P. morsprunorum, 335, **336, 337**
tabaci
on bean, in Brazil, characterization of, 208, **209, 210**
toxin from, ribulose bisphosphate carboxylase inhibited by, 376
tagetis, on zinnia, chlorosis-inducing toxin from, ultrastructure, 839, **840, 841**
tomato, seed-borne, in transplants, 535
Pseudoperonospora cubensis
on cucumber, fungicide for, new systemic-, 433
on muskmelon, predictor for, in Indiana, 543
psorosis virus, distribution in host, 200
Puccinia
coronata
from buckthorn, pathogenicity related to oat source, 156
on oats
genes from wild oats, 450
spread of, 1199
coronata avenae, groat protein affected by, 776
graminis avenae, races of, system of nomenclature for, 293
graminis tritici
inoculation technique for, 420, **421**
inoculum quality of, environmental effects, 1106
resistance gene identified, 672
on wheat
field evaluation method, 405
infection types with designated genes, 722
planting date effect, 543
hordei
on barley
slow rusting inheritance in, 145
yield loss in New Zealand, model comparison, 1239
pelargonii-zonalis, on geranium, disease cycle and control, 923, **924–926**
recondita tritici
genetics of pathogenicity, linkage, 661
inoculum quality of, environmental effects, 1106
on wheat, new fungicides for, 544
sorghi, on corn, quality and yield effect, 1029
striiformis, on wheat, resistance to by reselection, 400

tobacco
Alternaria alternata on, ethanol treatment for, 773
bacteria on, hypersensitive reaction induced by, plasmolytica effect, 121
black shank of, resistance to, seedling test, 1132
brown spot of, resistance to, transgressive segregation, 537
growth of, methyl bromide effect on, 793
nematode effect on galls, 537

ozone effect on, sterol and fatty acid relation, 582
potyviruses of, mixed infection, viral RNA encapsidation of, 918
tobacco etch virus
capsid protein of, characterization, 1031
isolates of, aphid transmission properties, 531
tobacco mosaic virus
dissociation reaction of, 424
on pepper, detection by ELISA, 1259
resistance to, by potato virus X, 531
tobacco necrosis virus, on cucumber, graft transmission of resistance to, 753
tobacco ringspot virus
protein synthesis in, 1028
seedborne, serologically specific electron microscopy for detection, 96, **97–99**
tobacco vein mottling virus, aphid vectors for, 529
Todd, J. W., (1042)
Toler, R. W., (525), (528), (1023), (1032), (1045)
tomato
bacterial soft rot of
eight species affecting, 1026
nitrogen nutrition relation, 163
bacterial wilt of, chemical control for, 637
Meloidogyne incognita on, ascorbic acid and resistance relation, 579
nematode and Verticillium on, inoculum density effect, 532
Orobanche ramosa on, anatomy changed by parasitism, 741, **742, 743, 745–747**
Peru tomato virus on, properties and serology, 441, **443**
Phytophthora infestans on, Ridomil as systemic fungicide on, 645
postharvest decay of, fungicide-wax treatment for, 59, **62**
Pseudomonas corrugata on, isolate from alfalfa, 27
Rhizoctonia solani on, histopathology, 556, **557, 558**
soft rot of, in Florida, pectolytic bacteria causing, 1021
soilborne diseases of, Trichoderma for control, 1031
Verticillium wilt of, inoculum density effect, 490, 1176
yellowing virus of, yield and quality effect, 1049
tomato mosaic virus
cross protection effect on fruit yield, 916
strains of, severe in staked tomatoes, 1038

West, J., (533)
Whalen, C. H., (789)
wheat
glume blotch of, P and K effect, minimum tillage, 1025
leaf rust of, new fungicides for, 544
leaf spot of, in South Carolina, 529
powdery mildew of
Bayleton for control in South Carolina, 1034
genetic control of haustoria, 48
rust resistance in, letter to editor, 198
Septoria nodorum on
resistance to, 920
transgressive segregation in, 920
Septoria tritici on, loss in California, 1022
snow rot of, in North Dakota, 543
stem rust of
designated genes for resistance, 722
field evaluation method, 405
planting date effect, 543
stripe rust of
epidemic related to climate, 1024
resistance to, reselection for, 400
Xanthomonas translucens and Septoria nodorum effect, 535
wheat soil-borne mosaic virus, purification of, 540
wheat streak mosaic virus, resistance to, 541
Wheeler, H., 32
Wheeler, R. E., (918)
Whetzelinia sclerotiorum, carbon monoxide suppression of, 834
white clover mosaic virus, enzyme-immunoassay of, sap and additive effect, 1038
White, J. A., (1028)
white oak (see also **Quercus rubra**)
rain, temperature, and growth in Arkansas, 531
Whiteside, J. O., (667)

Woo, J. Y., 922
wood decay
compartmentalization of, mechanisms, symposium, 1147, **1149**
concept of, classical and current, symposium, 1158
heartrots, mechanism and unique features of, symposium, 1151
mechanisms of tree defense, decay patterns, symposium, 1136
resistance to, role of stilbenes, symposium, 1138
sapwood response, symposium, 1143
sterilization method for, 688
Woodhead, S. H., 1049
Wyatt, S. D., 125, (621), (1035)
Wyllie, T. D., (1028), 1049

Xanthomonas sp., on grape, leaf necrosis from, 1032
fragariae, on strawberry, growth and inoculation procedure, 535
malvacearum, on cotton, necrosis related to darkness, 1033
oryzae
nitrogen relation to yield, 970
on rice
specificity in, 152
yield related to severity of disease, 967, 970
pelargonii, toxin from, on geranium, 1030
phaseoli
on bean, resistance to, 536
on white bean, ozone interaction, 101
translucens, on winter wheat, relation to Septoria nodorum, 535
vesicatoria, on pepper, mutation for race change, antibiotic resistance, 634
Xiphinema spp., enumeration and identification of procedure in soil, 918
